Basic Electronic Fetal Monitoring

Friday, April 30, 2010
Virtua Memorial Hospital
Voorhees, NJ

Friday, September 17, 2010
AtlantiCare Regional
Medical Center
Mainland Campus
Galloway, NJ

Sponsored by
Southern New Jersey
Perinatal Cooperative

Instructor: Linda A. Haich, RNC, MSN

Conference Goal

This important workshop is to introduce the “newer” OB nurse to the basics of fetal heart rate monitoring. They will receive information on the most current National Institute on Child Health and Development (NICHD) terminology that will allow them to provide evidence-based strip interpretation and nursing interventions.

As a result of this program, participants will be able to:

- ✓ Discuss basic maternal-fetal physiology and fetal monitoring instrumentation.
- ✓ List the components needed to perform an adequate assessment of fetal well-being.
- ✓ Interpret common fetal heart rate patterns.
- ✓ Provide appropriate nursing interventions for non-reassuring tracings.
- ✓ Document in a clear and legally-defensible manner.

Agenda

- 8:30 a.m. ▶ Registration and Continental Breakfast
- 9 a.m. ▶ Professional Responsibilities
 - ▶ Basic Maternal-Fetal Physiology
 - ▶ Instrumentation
- 10:45 a.m. ▶ Break
- 11 a.m. ▶ Assessment of Uterine Contraction Patterns
 - ▶ Baseline Fetal Heart Rate Characteristics
- Noon ▶ Lunch
- 12:45 p.m. ▶ Fetal Heart Rate Changes
 - ▶ Nursing Interventions
- 2 p.m. ▶ Defensive Documentation Strategies
- 2:45 p.m. ▶ Evaluations
- 3 p.m. ▶ Adjourn
