

## Immunization Education Resources for Parents

### CHILDHOOD IMMUNIZATION

- **Vaccines for Your Children (CDC)**  
This [website](#) provides information to parents about childhood vaccines for each age, including information on safety and efficacy.
- **Childhood Immunization Videos (CDC)**  
These [short videos](#) help to educate about the importance of childhood immunizations in an entertaining fashion. Share these videos via social media to spread the message.
- **How to Hold your Child during Vaccinations (CDC)**  
This resource provides helpful tips to soothe a child while receiving vaccines. Review [this flyer](#) before upcoming immunization visits.

### ADOLESCENT IMMUNIZATION

- **Vaccines for Preteens and Teens (NJDOH)**  
This [flyer](#) provides information to parents on the recommended adolescent immunizations.
- **HPV Info for Parents (NJDOH)**  
This flyer provides parents with answers to frequently asked questions about the human papillomavirus (HPV) vaccine. It is available in both [English](#) and [Spanish](#).

### ADULT IMMUNIZATION

- **NJDOH Reliable Resources for Expectant Moms**  
There is a lot of vaccine misinformation, which can lead to vaccine hesitancy and refusal. This flyer provides a list of credible immunization resources for expectant moms to provide answers to common questions and concerns. This flyer is available in [English](#) and [Spanish](#).
- **NJIS Information for Adults**  
These rack cards provide information to adults on the benefits of participating in the immunization registry. These are available in [English](#) and [Spanish](#).

- **Adult Immunization Brochure (NJDOH)**

This [brochure](#) provides information to adults on the recommended immunizations. The brochure also features a tear-out immunization record card for the patient to keep as documentation of all received vaccines.

- **Older Adult Immunization Brochure (NJDOH)**

This [brochure](#) focuses on the adult population 50 years and older. It provides information on the recommended vaccines for older adults.

*\*Some of these materials are available as hard copies at no cost upon request. To make a request, please contact the Vaccine Preventable Disease Program at 609-826-4861.*

## **ADDITIONAL RESOURCES**

- **Your Child's Best Shot - Ask Your Doctor about the Immunization Registry (NJDOH)**

This brochure explains the benefits of participating in the New Jersey Immunization Information System (NJiIS)—the official statewide immunization registry. The registry helps to make sure children are up to date on routine immunizations. [Click here](#) to access the brochure.

- **New Jersey Vaccines for Children (NJ VFC) Program**

Families who need help paying for vaccines should ask their healthcare provider about the Vaccines for Children (VFC) program. The VFC program provides vaccines to uninsured and underinsured children younger than 19 years old. Parents may have to pay administration and office visit fees. For more information, contact the NJ VFC at (609) 826-4862. This [flyer](#) provides an overview of the VFC Program.
